AFFIDAVIT OF TRUTH NO COERCION NO WITNESSES

I, SHAHONY MONTEFALCON CABAHUG, of legal age and a resident of Cauayan, Negros Island Region, Philippines, being duly sworn, state under oath as follows:

1. Identity and Volition
I am the person named above. I make this sworn statement of my own free will and volition. I present my government identification (UMID 111-7520647-9) as proof of identity and authorize the attached digital identity verification record to be appended to this sworn statement.

2. Truth of Record
All facts, events, documents, and allegations recorded in LEDGER ID CANCAI-DECREE-0001, including the Manifesto, Preservation Order, Evidence Index, and related exhibits, are true and correct to the best of my knowledge and belief.

3. No Coercion
I affirm that I have not been coerced, threatened, intimidated, or unduly influenced by any person, entity, or authority to make this statement. I execute this affidavit voluntarily and with full understanding of its legal consequences.

4. Waiver of Witness Requirement
I expressly declare that no witness is required for the validity of this sworn statement. I waive any requirement for witness attestation and request that the notarial act be performed via an accredited digital notary process that verifies my identity and records the jurat electronically.

5. Perjury Oath
I understand that under the laws of the Republic of the Philippines, willful false statements made in this sworn statement constitute perjury and are punishable by law. I declare under penalty of perjury that the foregoing is true and correct.

6. Purpose and Use
This sworn statement is made to support the Manifesto, Preservation Order, and enforcement directives recorded under LEDGER ID CANCAI-DECREE-0001 and for all legal, administrative, and evidentiary purposes as may be necessary.

Affiant Signature
SHAHONY MONTEFALCON CABAHUG
Signed Electronically: SHA-256 Signature Hash will be computed at signing and appended to the ledger.

DIGITAL NOTARY JURAT AND CERTIFICATION

Digital Notary Statement

I, the undersigned Digital Notary, certify that on the date and time recorded below the identity of the affiant was verified by government ID and by an accredited digital identity verification service; that the affiant acknowledged executing this sworn statement freely and without coercion; and that the affiant requested notarization without witness attestation.

Digital Notary Actions Performed

- Verified affiant identity using UMID 111-7520647-9 and government ID verification API.
- Captured affiant biometric or authentication token as required by the digital notary platform.
- Attached digital notary certificate and timestamp to this jurat.
- Computed and recorded the SHA-256(salt||document) fingerprint and appended the fingerprint to LEDGER ID CANCAI-DECREE-0001.

Digital Notary Certificate

- Certificate ID: AUTO-GENERATED UPON NOTARIZATION
- Issuing Authority: Accredited Digital Notary Service (recorded in ledger metadata)
- Timestamp: [Digital Notary Timestamp will be recorded here]
- Digital Notary Signature Hash: [Computed and recorded upon notarization]

Digital Notary Attestation

By affixing the digital notary certificate and signature hash to this jurat, the Digital Notary attests that the affiant executed this sworn statement voluntarily, that identity verification was completed, and that no witness attestation was required or requested by the affiant.

Digital Notary Signature

Digital Notary Service Representative

Signed Electronically: Digital Notary Signature Hash will be computed and appended to the ledger.

LEDGER RECORDING AND HASHING

Ledger Entry Reference: CANCAI-DECREE-0001-AFF-20251223

Document Hash: SHA256(salt||document) = salt-hex:hash (computed at time of final signing)

Timestamp Receipts: Dual timestamp TXIDs will be recorded and appended to the ledger upon notarization.

Storage: Air-Gapped Master Copy; Redundant Backups; Blockchain Anchor TXIDs recorded in ledger metadata.

INSTRUCTIONS FOR IMMEDIATE EXECUTION (NO WITNESS FLOW)

1. Affiant signs the document electronically using the agreed signing method; compute and record the signature hash.
2. Digital Notary performs identity verification against UMID and issues the digital notary certificate; attach certificate and timestamp.

3. System computes SHA-256(salt||document) and records salt-hex fingerprint in the air-gapped master and in at least two independent timestamping services; record TXIDs.
4. Ledger appends the notarized jurat, digital notary certificate ID, signature hashes, and timestamp receipts as a sealed entry under CANCAI-DECREE-0001.
5. No witness is required or recorded; the affiant's waiver of witness attestation is included in this jurat.

AFFIRMATION

I affirm that I have read and understood the contents of this sworn statement and that I execute it freely and without reservation.
Affiant Electronic Signature Hash: will be computed and recorded at signing
Affiant Printed Name: SHAHONY MONTEFALCON CABAHUG
Date Signed: 23 December 2025 · 04:19 AM PHT

Note: This document is prepared for immediate digital notarization and ledger recording. The digital notary certificate ID, signature hashes, and timestamp receipts will be auto-generated and appended at the moment of notarization and hashing.
